

## PRESS RELEASE

18/02/2021

# GFT cloud support now available on G-Cloud 12 digital marketplace

- Supports UK government's goal to accelerate digital transformation adoption across public sector
- The public sector will benefit from a proven track record of practical cloud delivery experience
- Expert, multifaceted teams

**London: 18 February 2021 – [GFT](#), a global IT services and software engineering provider driving the digital transformation of the world's leading companies in financial services, insurance and manufacturing, has been accepted into the UK government's Crown Commercial Service (CCS) procurement framework G-Cloud 12. GFT is listed to provide cloud support via the [Digital Marketplace](#).**

The Crown Commercial Service (CCS) G-Cloud 12 framework is part of the UK government's Information and Communication Technology (ICT) strategy designed to help the digital transformation of public services. The framework provides a marketplace to source and purchase cloud-based technologies more efficiently than traditional procurement methods. The CCS supports the public sector to achieve maximum commercial value when procuring common goods and services. In 2018/19, CCS helped the public sector to achieve commercial benefits worth £945m – supporting world-class public services that offer best value for taxpayers.

GFT has been named to offer cloud support on the following lots:

- GFT Cloud Strategic Plan
- GFT Mainframe to Cloud Migration
- GFT Cloud Architectural Review
- GFT Cloud User Experience (UX)
- GFT Cloud Machine Learning (ML) Discovery
- GFT Cloud Migration
- GFT Cloud Landing Zone Build

**Leon Orr, Chief Delivery Officer, GFT (UK)** said: "Being listed in the G-Cloud 12 Digital Marketplace is a major initiative for us as there are many areas where GFT can really help the UK's public sector to achieve its digital transformation goals. The firm brings deep expertise from strategy through to architecture and delivery and has extensive hands-on experience of helping to drive innovation and cost control through the successful delivery of cloud adoption strategies. We firmly believe that no organisation should undertake any technology transformation programme without the added security of working with a team of experts who bring a proven track record of success. No firm can afford to get this wrong – nor can they avoid embarking on the digital transformation journey. We are here to help."
